## **XV “ALHAURÍN DE LA TORRE INTERNATIONAL JAZZ WORKSHOP” (MÁLAGA, SPAIN)**

The “Alhaurín de la Torre International Jazz Workshop” celebrated its first edition back in 2004, and since then it has been taking place every year at the EMMAT in Alhaurín de la Torre, one of most prolific towns in the province of Málaga, Spain.

After nearly 15 years of existence, it has become one of the most outstanding jazz workshops in Spain and Europe. We feel privileged to have counted in our faculty staff of previous editions with some of the biggest heavyweights of jazz, like George Cables, Steve Grossman, Peter Bernstein, Ralph Moore, Bruce Barth, Aaron Goldberg, David Kikoski, Eric Alexander, George Garzone, Joe Chambers, Jeff Ballard, Perico Sambeat, Chris Cheek, Gregory Hutchinson or Gerald Cannon, among many others.

The program consists of four days full of music, starting in the morning with group instrument lessons followed by a masterclass at the auditorium hall. After lunch break there will be combo lessons and in the evening there will be a concert in Málaga by one of the teachers (each day a different teacher will perform accompanied by some of the best musicians from the spanish and portugish jazz secene).

Every night around 23:30 there will be a jam session in a nice pub of Alhaurín de la Torre, where teachers and students get to share music, fun and experiences together.

The high quality of the faculty, the great affluence of students and musicians from all over Europe and the outstanding concerts, among other things, make of this event a worth living experience. Come and you won't regret it!
